After thousands of residents weighed in on the draft Denveright plans that were released in August, on Monday, the city released updated versions of three of those plans—Comprehensive Plan 2040, Blueprint Denver and Game Plan for a Healthy City—reflecting the feedback received from the community.

These new drafts offer Denver residents now yet another opportunity to help guide growth, parks, and mobility options for a more inclusive, connected and healthy city over the next 20 years. Please share the information and links below with your networks to help spread the word about the new drafts and upcoming opportunities for community input.
